

TECH-ARCH-1846: Architecture Reference Document

Department: Architecture

Author: Eric Hansen

Effective Date: 2022-09-13

1. Document Scope and Executive Summary

This Architecture Reference Document (ARD) outlines the core policies, standard operating procedures, and governance framework.

The ARD serves as a critical reference point for architects, project managers, and other team members involved in software development.

2. Core Policies and Standard Operating Procedures

2.1 Architecture Principles

The Architecture department is guided by the following core principles:

- * **Sustainability***: Designs should prioritize scalability, maintainability, and flexibility to ensure long-term viability.
- * **Innovation***: Architects should encourage experimentation and adoption of emerging technologies to drive business growth.
- * **Collaboration***: Interdisciplinary teamwork is essential for successful project outcomes.

2.2 Project Lifecycles

- * **Initiation***: Identify project goals, scope, and stakeholders through a formal request process.
- * **Design***: Develop detailed architectural designs using approved tools and methodologies.
- * **Implementation***: Collaborate with development teams to implement designed solutions.
- * **Maintenance***: Monitor and refine existing architectures based on performance metrics and user feedback.

2.3 Communication and Collaboration

- * **Regular Meetings***: Schedule bi-weekly architecture reviews to discuss ongoing projects, share knowledge, and identify best practices.
- * **Documentation***: Maintain accurate and up-to-date documentation of architectural decisions, designs, and implementation details.

3. Compliance Monitoring, Penalties, and Operational Governance

3.1 Compliance Monitoring

The Architecture department will regularly review and audit architectural designs to ensure compliance with company standards.

3.2 Penalties for Non-Compliance

Failure to adhere to established architecture principles, standards, and guidelines may result in:

- * **Verbal Warning***: First-time offenders will receive a verbal warning and guidance on corrective actions.
- * **Written Warning***: Repeat offenders will receive a written warning and mandatory training on architectural best practices.

3.3 Operational Governance

- * **Architecture Review Board (ARB)***: A committee comprising experienced architects, project managers, and stakeholders will review and approve architectural designs.
- * **Change Management Process***: The ARB will oversee changes to existing architectures, ensuring that updates align with company goals and standards.
