Architecture Reference Document: TECH-ARCH-2818

1. Document Scope and Executive Summary

This reference document outlines the policies, procedures, and guidelines governing the Architecture department's operations w

The scope of this document includes:

- * Defining the roles and responsibilities of architecture team members
- * Establishing standards for architectural design, documentation, and communication
- * Outlining procedures for reviewing, approving, and maintaining architectural designs
- * Identifying key performance indicators (KPIs) for measuring architecture team success

2. Core Policies and Standard Operating Procedures

Policy: Architectural Design Principles

The Architecture department shall adhere to the following design principles:

1. ****Separation of Concerns****: Components should be designed to perform a single, well-defined function.
2. ****Modularity****: Systems should be composed of loosely coupled modules that can be developed, tested, and deployed indepe
3. ****Abstraction****: Higher-level abstractions should be used to simplify complex systems and reduce dependencies.
4. ****Reusability****: Components should be designed for reuse across multiple projects and systems.

Procedure: Architectural Design Review

1. ****Submission****: Architects shall submit their design documents for review at least two weeks prior to project kick-off.
2. ****Review Process****:
 - * The Architecture department shall conduct a formal review of the submitted design document.
 - * A review committee comprising at least three members (including one architect, one developer, and one product owner) shall
 - * The committee shall provide written feedback and recommendations for improvement.
3. ****Approval****: The reviewed design document shall be approved by the Architecture department or the project manager if it me

Procedure: Architecture Team Communication

1. ****Regular Meetings****: The architecture team shall hold bi-weekly meetings to discuss ongoing projects, share knowledge, and
2. ****Design Documentation****: Architects shall maintain up-to-date design documentation for all projects, including architecture d

3. Compliance Monitoring, Penalties, and Operational Governance

Compliance Monitoring:

The Architecture department shall conduct regular compliance monitoring to ensure adherence to established policies and proce

1. ****Design Document Audits****: The department shall review design documents for compliance with the architectural design prin
2. ****Code Reviews****: The department shall participate in code reviews to ensure that implemented designs conform to the appro

Penalties:

In cases where the Architecture department fails to comply with established policies and procedures, the following penalties may

1. **Warning**: A written warning shall be issued for minor infractions.
2. **Reprimand**: A formal reprimand shall be given for moderate infractions.
3. **Disciplinary Action**: Disciplinary action, including but not limited to suspension or termination, shall be taken in cases of se

Operational Governance:

The Architecture department shall operate under the following governance structure:

1. **Architecture Team Lead**: The team lead shall be responsible for ensuring compliance with established policies and proced
2. **Architecture Committee**: A committee comprising at least three members (including one architect, one developer, and one

By adhering to this reference document, the Architecture department can ensure that its operations are conducted in a manner c
