

# # TECH-ARCH-3003: Architecture Reference Document

## ## Metadata:

- \* Document ID: TECH-ARCH-3003
- \* Department: Architecture
- \* Author: Donna Matthews
- \* Effective Date: 2022-03-01

## ## 1. Document Scope and Executive Summary

This Architecture Reference Document (ARD) outlines the policies, procedures, and guidelines for the Architecture department and its role in the organization.

The scope of this document includes:

- \* Defining the architecture design principles and standards
- \* Establishing processes for creating and managing architectural documentation
- \* Outlining the roles and responsibilities within the Architecture department
- \* Describing compliance monitoring, penalties, and operational governance

By following the guidelines outlined in this ARD, the Architecture department will ensure that our company's architectural assets are managed effectively and consistently.

## ## 2. Core Policies and Standard Operating Procedures

### ### 2.1 Design Principles

- \* The Architecture department will adhere to a set of core design principles, including:
  - + Modularity
  - + Scalability
  - + Security
  - + Usability
  - + Compatibility
- \* All architectural designs must align with these principles.

### ### 2.2 Documentation Standards

- \* The Architecture department will maintain accurate and up-to-date documentation for all architectural assets.
- \* Documentation standards include:
  - + Format: [insert format, e.g., UML, JSON]
  - + Content: [insert content, e.g., component descriptions, dependencies]

### ### 2.3 Change Management Process

- \* The Architecture department will implement a change management process to manage changes to architectural designs.
- \* The process includes:
  1. Request for Change (RFC) submission
  2. Review and approval by the Architecture Committee
  3. Implementation of approved changes
  4. Verification of changes against design principles and standards

### ### 2.4 Code Reviews and Testing

- \* The Architecture department will conduct regular code reviews to ensure adherence to design principles, standards, and best practices.

- \* Automated testing will be implemented to verify that architectural designs meet functional requirements.

## ## 3. Compliance Monitoring, Penalties, and Operational Governance

### ### 3.1 Compliance Monitoring

- \* The Architecture department will monitor compliance with this ARD by:
  - + Conducting regular audits of architectural designs
  - + Reviewing code changes for adherence to design principles and standards
  - + Verifying that documentation is accurate and up-to-date

### ### 3.2 Penalties

- \* Failure to comply with this ARD may result in penalties, including:
  - + Warning letters
  - + Performance improvement plans
  - + Disciplinary action

### ### 3.3 Operational Governance

- \* The Architecture department will establish operational governance procedures to ensure that architectural designs are properly
- \* Procedures include:
  1. Version control for architectural designs
  2. Regular backups of architectural documentation
  3. Maintenance schedules for architectural assets
