- * Department: Architecture
- * Author: Laura Fletcher
- * Effective Date: 2021-07-01

1. Document Scope and Executive Summary

This document outlines the core policies, standard operating procedures (SOPs), and operational governance for the Architecture department.

The purpose of this document is to provide a clear understanding of the Architecture department's roles, responsibilities, and best practices.

2. Core Policies and Standard Operating Procedures

2.1 Design Principles

The Architecture department adheres to the following design principles:

- * Scalability: Designs should accommodate growth and adapt to changing business requirements.
- * Modularity: Components should be modular, reusable, and easily maintainable.
- * Flexibility: Designs should enable flexibility in terms of technology stack, infrastructure, and deployment options.

2.2 Architecture Development Process

The architecture development process consists of the following stages:

1. Requirements Gathering: Identify and document business requirements.
2. Conceptual Design: Develop a high-level design concept based on gathered requirements.
3. Technical Design: Create a detailed technical design, including component selection and integration.
4. Implementation: Implement the designed architecture.
5. Testing: Conduct thorough testing to ensure architecture meets requirements.

2.3 Change Management

The Architecture department uses the following change management process:

1. Request for Change (RFC): Submit a formal RFC to propose architectural changes.
2. Review and Approval: The Architecture team reviews and approves or rejects the RFC.
3. Implementation: Implement approved architectural changes.
4. Testing and Verification: Conduct thorough testing and verification to ensure changes meet requirements.

3. Compliance Monitoring, Penalties, and Operational Governance

3.1 Compliance Monitoring

The Architecture department will monitor compliance with this document through regular audits, reviews, and reporting.

3.2 Penalties for Non-Compliance

Failure to comply with this document may result in the following penalties:

- * Written warnings
- * Mandatory training or professional development
- * Suspension or revocation of architectural privileges

3.3 Operational Governance

The Architecture department will maintain operational governance through the following mechanisms:

- * Establishing clear roles and responsibilities
- * Defining and documenting processes and procedures
- * Conducting regular reviews and audits
- * Implementing continuous improvement initiatives
