

TECH-ARCH-3758: Architecture Reference Document

Department: Architecture

Author: Carl Mitchell

Effective Date: 2025-02-28

1. Document Scope and Executive Summary

This document outlines the core policies, standard operating procedures (SOPs), and guidelines governing the Architecture department.

The Architecture team is responsible for designing and developing software architectures that meet business requirements, ensuring scalability, security, and performance.

2. Core Policies and Standard Operating Procedures

2.1. Architecture Review Committee (ARC)

The ARC is responsible for reviewing and approving all architecture designs submitted by the Architecture team. The committee ensures that all designs align with company standards and business goals.

2.2. Design Standards

The Architecture department adheres to the following design standards:

- * [Company Name] Architecture Style Guide
- * Programming languages: Java, Python, C++
- * Frameworks: Spring, Django, React
- * Databases: MySQL, PostgreSQL, MongoDB
- * APIs: RESTful, GraphQL

2.3. Development Process

The Architecture team follows the Agile development methodology, with the following stages:

1. Requirements gathering and analysis
2. Design and prototyping
3. Development and testing
4. Review and iteration
5. Deployment and maintenance

2.4. Change Management

All changes to existing architecture or introduction of new components must be documented and approved by the ARC.

3. Compliance Monitoring, Penalties, and Operational Governance

3.1. Compliance Monitoring

The Architecture department is responsible for monitoring compliance with company standards, policies, and regulations. The team ensures that all architectures adhere to the latest industry best practices.

3.2. Penalties

Failure to comply with this document's guidelines may result in:

- * Verbal warnings
- * Written reprimands

* Suspension or termination of Architecture team members

3.3. Operational Governance

The Architecture department will maintain accurate records of all architecture designs, reviews, and approvals. The department
