

TECH-ARCH-4366
Document ID: TECH-ARCH-4366
Department: Architecture
Author: Mark Dawson
Effective Date: 2023-07-24

1. Document Scope and Executive Summary

This Architecture Reference Document outlines the department's policies, standard operating procedures (SOPs), and governance.

The scope of this document includes:

- * Defining Architecture department roles and responsibilities
- * Establishing SOPs for architecture design, development, and maintenance
- * Outlining compliance monitoring procedures and associated penalties
- * Providing operational governance guidelines for effective architecture implementation

2. Core Policies and Standard Operating Procedures

2.1. Architecture Design Standards

The Architecture department will adhere to the following standards when designing and developing architectures:

- * Use of industry-standard frameworks (e.g., TOGAF, Zachman) for architecture development
- * Adherence to enterprise architecture principles (e.g., scalability, security, reliability)
- * Compliance with relevant regulations (e.g., GDPR, HIPAA)

2.2. Architecture Development and Maintenance

The Architecture department will follow these SOPs for architecture development and maintenance:

- * Use of version control systems (e.g., Git) for tracking changes and collaborating on architectures
- * Conduct regular architecture reviews and updates to ensure alignment with enterprise goals and regulations
- * Maintain accurate records of architecture decisions, rationales, and impact assessments

2.3. Architecture Governance

The Architecture department will adhere to the following governance procedures:

- * Establish clear ownership and accountability for architecture development and maintenance
- * Define decision-making authorities and escalation procedures
- * Conduct regular architecture governance meetings to review progress, address issues, and align with enterprise goals

3. Compliance Monitoring, Penalties, and Operational Governance

3.1. Compliance Monitoring

The Architecture department will conduct regular compliance monitoring to ensure adherence to:

- * Enterprise architecture standards and regulations
- * Industry-standard frameworks and best practices
- * Relevant laws and regulations (e.g., data privacy, security)

3.2. Penalties for Non-Compliance

In the event of non-compliance with the policies and SOPs outlined in this document, the Architecture department may impose penalties:

- * Warning letters or verbal warnings
- * Suspension or termination of architecture development or maintenance activities
- * Reassignment of responsibilities or personnel

3.3. Operational Governance

The Architecture department will maintain effective operational governance by:

- * Establishing clear roles and responsibilities for architecture team members and stakeholders
- * Defining decision-making authorities and escalation procedures
- * Conduct regular architecture governance meetings to review progress, address issues, and align with enterprise goals
