

Document Metadata

- * Document ID: TECH-ARCH-4557
- * Department: Architecture
- * Author: Grant Morton
- * Effective Date: 2020-12-28

1. Document Scope and Executive Summary

This Architecture Reference Document (ARD) outlines the policies, procedures, and guidelines governing the design, development, and deployment of software architecture within the organization.

The scope of this ARD includes:

- * Software architecture design principles
- * Development methodologies
- * Quality control procedures
- * Change management processes
- * Compliance monitoring and reporting

This document applies to all employees involved in software development, testing, deployment, or maintenance within the organization.

2. Core Policies and Standard Operating Procedures

2.1 Software Architecture Design Principles

The following design principles shall guide the creation of all software architecture components:

- * Separation of Concerns (SoC)
- * Single Responsibility Principle (SRP)
- * Don't Repeat Yourself (DRY)
- * Keep It Simple, Stupid (KISS)

2.2 Development Methodologies

The organization shall employ Agile development methodologies for all software projects. This includes:

- * Iterative development
- * Incremental delivery
- * Continuous integration and continuous deployment (CI/CD)

2.3 Quality Control Procedures

To ensure the quality of software architecture components, the following procedures shall be followed:

- * Code reviews
- * Unit testing
- * Integration testing
- * System testing
- * Peer review

2.4 Change Management Processes

The organization shall employ a change management process to manage changes to software architecture components. This includes:

- * Change request submission and approval
- * Impact analysis
- * Risk assessment
- * Rollback planning

3. Compliance Monitoring, Penalties, and Operational Governance

3.1 Compliance Monitoring

The organization shall monitor compliance with this ARD through regular audits and inspections.

3.2 Penalties for Non-Compliance

Failure to comply with the policies and procedures outlined in this ARD may result in penalties, including:

- * Verbal warnings
- * Written warnings
- * Suspension or termination of employment

3.3 Operational Governance

The organization shall establish an Architecture Review Board (ARB) to oversee the implementation and enforcement of this ARD.

- * Approving architectural designs
- * Overseeing change management processes
- * Providing guidance and training on software architecture best practices
