

TECH-ARCH-4714: Architecture Reference Document

Department: Architecture

Author: Brian Henry

Effective Date: 2022-09-28

1. Document Scope and Executive Summary

This document outlines the scope, policies, procedures, and governance framework for the Architecture department at [Company Name].

The Architecture department is responsible for designing, developing, and maintaining the organization's architecture, including:

2. Core Policies and Standard Operating Procedures

Policy: Architecture Design Principles

The Architecture department shall adhere to the following design principles:

- * Scalability: Designs must be scalable to accommodate future growth and changes.
- * Security: Designs must prioritize security and data confidentiality.
- * Flexibility: Designs must allow for flexibility and adaptability to changing business needs.
- * Reusability: Designs must promote reusability and minimize duplication of effort.

Procedure: Architecture Review and Approval

All architectural designs, including high-level architecture diagrams, system design documents, and technical specifications, shall undergo a review and approval process.

Procedure: Change Management for Architectural Changes

Any changes to the architecture, including updates, upgrades, or modifications, must be managed through the change management process.

3. Compliance Monitoring, Penalties, and Operational Governance

Compliance Monitoring:

The Architecture department shall monitor compliance with this document's policies and procedures on an ongoing basis. Non-compliance will be addressed according to the penalties section.

Penalties:

Failure to comply with architecture design principles, review and approval procedures, or change management processes may result in the following penalties:

- * Warning: First-time offenders will receive a written warning.
- * Reprimand: Repeat offenders will be subject to reprimands.
- * Suspension/Demotion: Persistent non-compliance may lead to suspension or demotion from the Architecture department.

Operational Governance:

The Architecture department shall maintain accurate and up-to-date records of all architectural designs, changes, and compliance.

This document is subject to change as business needs evolve. Any updates or revisions will be communicated to the Architecture department.
