

Architecture Reference Document: TECH-ARCH-5199

Department: Architecture

Author: David Ellis

Effective Date: 2020-07-07

Document Scope and Executive Summary

This reference document outlines the core policies, standard operating procedures (SOPs), and operational governance for the

The scope of this document includes:

- * Defining roles and responsibilities within the Architecture department
- * Establishing guidelines for architecture design and development
- * Outlining procedures for compliance monitoring, penalties, and operational governance

2. Core Policies and Standard Operating Procedures

2.1 Design Principles

- * The Architecture department will adhere to the following design principles:
 - + Scalability: Designs should be scalable to accommodate growth and changing business needs.
 - + Security: Designs should prioritize security and minimize potential vulnerabilities.
 - + Interoperability: Designs should enable seamless integration with existing systems and infrastructure.

2.2 Architecture Development Process

- * The architecture development process will follow the following stages:
 1. Requirements gathering
 2. Design creation
 3. Review and feedback
 4. Iteration and refinement
 5. Deployment and testing

2.3 Change Management

- * The Architecture department will implement a change management process to ensure that all changes are properly reviewed,

3. Compliance Monitoring, Penalties, and Operational Governance

3.1 Compliance Monitoring

- * The Architecture department will conduct regular compliance monitoring to ensure adherence to established policies and procedures
- * This monitoring will include:
 - + Regular audits of architecture designs and development
 - + Review of architectural decisions and justifications
 - + Verification of compliance with organizational standards and best practices

3.2 Penalties for Non-Compliance

- * Failure to comply with established policies and procedures may result in penalties, including:
 - + Written warnings
 - + Suspension or revocation of architecture privileges
 - + Mandatory training or professional development programs

3.3 Operational Governance

- * The Architecture department will maintain a governance framework that outlines roles and responsibilities for architects, stakeholders, and business units
- * This framework will include:
 - + Clear definitions of architectural decision-making authority
 - + Established procedures for conflict resolution and dispute mediation
 - + Regular review and assessment of the architecture governance framework
