

TECH-ARCH-6789: Architecture Reference Document

Department: Architecture

Author: Sarah Henry

Effective Date: 2024-09-21

Document Scope and Executive Summary

This Architecture Reference Document (ARD) outlines the core policies, standard operating procedures (SOPs), and compliance

The scope of this document includes:

- * Defining architectural principles and guidelines
- * Establishing standard operating procedures for architecture-related activities
- * Outlining compliance monitoring, penalties, and operational governance

2. Core Policies and Standard Operating Procedures

2.1 Architectural Principles

The Architecture department shall adhere to the following architectural principles:

- * Separation of Concerns (SoC): Ensure distinct components or layers in software design for maintainability and scalability
- * Layered Architecture: Implement a layered architecture with clear boundaries between layers
- * Abstraction: Utilize abstraction to hide implementation details and promote modularity

2.2 Standard Operating Procedures (SOPs)

The following SOPs shall be followed by architects:

- * **Design Reviews**: Conduct regular design reviews for all architecture-related projects to ensure adherence to architectural principles
- * **Code Quality**: Ensure high-quality code through rigorous testing, refactoring, and peer review
- * **Documentation**: Maintain accurate documentation of architecture decisions, design choices, and implementation details

2.3 Change Management

The Architecture department shall follow a formal change management process for any changes to existing architectures or introducing new ones.

- * **Change Request**: Submit a change request to the Architecture Working Group (AWG) for review and approval
- * **Impact Analysis**: Conduct an impact analysis to assess potential effects on other systems, services, or business processes
- * **Risk Assessment**: Perform a risk assessment to identify potential risks and mitigation strategies

3. Compliance Monitoring, Penalties, and Operational Governance

3.1 Compliance Monitoring

The Architecture department shall conduct regular compliance monitoring to ensure adherence to organizational standards, regulations, and industry best practices.

3.2 Penalties

Failure to comply with architectural principles, SOPs, or change management procedures may result in penalties, including:

- * **Warning**: Verbal warning by the Architecture Working Group (AWG)
- * **Reprimand**: Written reprimand by the AWG

* **Suspension**: Temporary suspension of architecture-related activities for a specified period

3.3 Operational Governance

The Architecture department shall establish and maintain effective operational governance to ensure:

- * **Architecture Governance Board**: Establish an Architecture Governance Board to oversee architecture-related decisions, pro
- * **Change Management Committee**: Establish a Change Management Committee to review and approve change requests
- * **Communication Plan**: Develop and maintain a communication plan to keep stakeholders informed of architecture-related ac

By following this Architecture Reference Document, the Architecture department shall ensure that software solutions meet busin
