

ARCHITECTURE REFERENCE DOCUMENT: TECH-ARCH-7775

Document Metadata

Department: Architecture

Author: Leslie Rich

Effective Date: 2024-03-10

1. Document Scope and Executive Summary

This document provides the overarching architecture reference framework for the Architecture department, outlining the scope, purpose, and key principles.

The purpose of this document is to:

- * Establish a common understanding of architectural principles, standards, and best practices
- * Provide guidelines for the development of new architectures and enhancements to existing ones
- * Ensure compliance with regulatory requirements and industry standards

2. Core Policies and Standard Operating Procedures

Policy: Architecture Governance

The Architecture department shall be responsible for governing the architecture of all enterprise systems, applications, and infrastructure.

Procedure: Architecture Design and Development

1. All new architectures and enhancements to existing ones must be designed and developed in accordance with the principles and standards defined in this document.
2. The Architecture department shall review and approve all architectural designs before implementation.
3. Architects shall collaborate with stakeholders to ensure that architectural decisions align with business objectives.

Policy: Infrastructure Management

The Architecture department shall be responsible for managing and maintaining the enterprise infrastructure, including hardware, software, and network resources.

Procedure: Infrastructure Maintenance

1. The Architecture department shall maintain a comprehensive inventory of all infrastructure components.
2. Regular maintenance tasks, such as backups, security updates, and performance tuning, shall be performed according to established schedules.
3. The Architecture department shall conduct regular assessments to identify areas for improvement and optimize infrastructure performance.

3. Compliance Monitoring, Penalties, and Operational Governance

Policy: Compliance Monitoring

The Architecture department shall monitor compliance with architectural standards and policies on a regular basis.

Procedure: Non-Compliance Detection and Resolution

1. In the event of non-compliance detection, the Architecture department shall notify the affected parties and provide guidance on corrective actions.
2. The Architecture department shall work with stakeholders to develop and implement remediation plans.
3. Repeat offenders may be subject to penalties, including re-training or re-assessment.

Policy: Operational Governance

The Architecture department shall govern the operational aspects of architecture development and maintenance, including resource allocation and project management.

Procedure: Operational Management

1. The Architecture department shall maintain a centralized repository for all architectural documentation and artifacts.
2. Regular meetings with stakeholders shall be conducted to ensure alignment and effective communication.
3. The Architecture department shall monitor and report on key performance indicators (KPIs) related to architecture development.
