

TECH-ARCH-7906: Architecture Reference Document

Department: Architecture

Author: Charles Osborne

Effective Date: 2020-11-28

1. Document Scope and Executive Summary

This Architecture Reference Document (ARD) outlines the scope, policies, procedures, and governance framework for the Architecture department.

The purpose of this document is to establish a unified set of principles, guidelines, and best practices for the Architecture department.

2. Core Policies and Standard Operating Procedures

2.1 Architecture Principles

- * The Architecture department shall adhere to the company's overall strategy and goals.
- * Architectural designs shall prioritize scalability, maintainability, security, and reliability.
- * All architectural decisions shall be based on well-defined requirements, technical feasibility, and business value.

2.2 Design Requirements

- * All architecture designs shall comply with relevant industry standards, regulations, and best practices.
- * Designs shall be documented in a consistent and standardized format (e.g., using Architecture Description Language).
- * Design reviews and approvals shall occur at regular intervals to ensure consistency and quality.

2.3 Change Management

- * The Architecture department shall maintain a centralized change management process for architectural designs and decisions.
- * Changes shall be evaluated based on their impact, feasibility, and alignment with the company's overall strategy.
- * All changes shall be documented, approved, and implemented according to established procedures.

3. Compliance Monitoring, Penalties, and Operational Governance

3.1 Compliance Monitoring

- * The Architecture department shall maintain a compliance monitoring program to ensure adherence to this ARD and relevant policies.
- * Regular audits and reviews shall be conducted to identify and address any non-compliance issues.
- * A reporting framework shall be established to track compliance metrics and performance indicators.

3.2 Penalties and Consequences

- * Failure to comply with the ARD or relevant policies may result in penalties, including but not limited to:
 - + Warning notices
 - + Performance improvement plans
 - + Disciplinary actions (up to and including termination)
- * The Architecture department shall maintain a centralized record of non-compliance incidents and associated penalties.

3.3 Operational Governance

- * The Architecture department shall establish an operational governance framework to ensure the effective management and oversight of architectural activities.
- * This framework shall include:
 - + Clear roles and responsibilities

- + Defined decision-making processes
- + Regular status updates and progress reports
