

TECHO-ARCH-8118
Architecture Reference Document
Department: Architecture
Author: Rachel Phillips
Effective Date: 2021-12-19

1. Document Scope and Executive Summary

This document outlines the core policies, standard operating procedures (SOPs), and guidelines for the Architecture department.

2. Core Policies and Standard Operating Procedures

2.1 Project Initiation

- * All project requests must be submitted through the official project management system.
- * The Architecture team will review and prioritize project requests based on business objectives, feasibility, and resource availability.
- * A formal project charter will be created upon project approval, outlining scope, goals, timelines, and key stakeholders.

2.2 Design Standards and Guidelines

- * All architectural designs must adhere to the company's design standards and guidelines.
- * Designs must be reviewed and approved by the Architecture team before implementation.
- * The use of third-party libraries, frameworks, or tools is subject to approval by the Architecture team.

2.3 Code Quality and Maintenance

- * All code must meet the company's coding standards and best practices.
- * Regular code reviews will be conducted to ensure quality, security, and maintainability.
- * A code maintenance process will be established for ongoing updates, fixes, and enhancements.

2.4 Collaboration and Communication

- * The Architecture team will collaborate with other departments (e.g., Engineering, Product) through regular meetings, email, or other communication channels.
- * Architects will maintain open communication channels with stakeholders, providing timely status updates and addressing concerns.
- * Conflict resolution procedures will be established for resolving disputes or issues.

3. Compliance Monitoring, Penalties, and Operational Governance

3.1 Compliance Monitoring

- * The Architecture team will monitor compliance with this document's policies and SOPs through regular audits, code reviews, and other means.
- * Non-compliance may result in corrective action, rework, or penalties as outlined below.

3.2 Penalties for Non-Compliance

- * Minor infractions: Verbal warning or minor rework
- * Moderate infractions: Written warning or temporary suspension from project responsibilities
- * Major infractions: Formal written warning or termination of employment

3.3 Operational Governance

- * The Architecture team will maintain a project management system to track progress, milestones, and deliverables.
- * A change management process will be established for handling changes to scope, timelines, or resources.
- * Continuous improvement initiatives will be implemented to refine processes and improve outcomes.

By following the guidelines outlined in this reference document, the Architecture department aims to promote best practices, ens
