- * **Department***: Architecture
- * **Author***: Olivia Cantu
- * **Effective Date***: 2022-07-03

1. Document Scope and Executive Summary

This reference document outlines the core policies, standard operating procedures (SOPs), and compliance guidelines for the Architecture department.

The scope of this document includes:

- * Defining the roles and responsibilities within the Architecture department
- * Establishing standard practices and procedures for architecture-related tasks
- * Outlining compliance requirements and monitoring mechanisms to ensure adherence to organizational policies and regulatory standards

2. Core Policies and Standard Operating Procedures

2.1. Design Principles

The Architecture department shall adhere to the following design principles:

- * **Modularity***: Designs should be modular, allowing for easy maintenance, updates, and scalability.
- * **Flexibility***: Solutions should be flexible enough to accommodate changing business requirements and technological advancements.
- * **Scalability***: Systems should be designed with scalability in mind to support growing demands.

2.2. Architecture Review Process

The Architecture department shall maintain a rigorous review process for all architectural designs, including:

1. **Initial Design Submission**: Architects shall submit their design proposals to the Architecture Review Committee (ARC) for initial review.
2. **Peer Review**: Designs will undergo peer review by experienced architects to ensure compliance with organizational standards.
3. **Final Approval**: The ARC will provide final approval or feedback for revisions, ensuring that designs meet organizational requirements.

2.3. Change Management

The Architecture department shall implement a change management process to manage architectural changes, including:

1. **Change Request**: Architects shall submit change requests to the Architecture Review Committee (ARC) with justification and impact analysis.
2. **Impact Analysis**: The ARC will conduct an impact analysis to determine the effects of the proposed change on existing systems.
3. **Approval and Implementation**: Changes will be approved by the ARC and implemented according to established procedures.

3. Compliance Monitoring, Penalties, and Operational Governance

3.1. Compliance Monitoring

The Architecture department shall maintain a compliance monitoring program to ensure adherence to organizational policies, regulatory standards, and industry best practices.

- * **Regular Audits**: The ARC will conduct regular audits to verify compliance with established procedures.
- * **Incident Reporting**: Architects shall report any incidents or non-compliance issues to the ARC for prompt resolution.

3.2. Penalties

Failure to comply with Architecture department policies and procedures may result in penalties, including:

- * **Warning***: The first instance of non-compliance will result in a written warning.
- * **Reprimand***: Subsequent instances of non-compliance may lead to formal reprimands.
- * **Disciplinary Action***: Persistent failure to comply may result in disciplinary action, up to and including termination.

3.3. Operational Governance

The Architecture department shall maintain effective operational governance, including:

- * **Communication Plan***: A communication plan will be established to ensure timely and accurate information sharing among s
- * **Meeting Schedules***: Regular meetings will be scheduled to discuss ongoing projects, address issues, and provide feedback

By adhering to the guidelines outlined in this reference document, the Architecture department will maintain a high level of quality
