

TECH-ARCH-8665: Architecture Reference Document

Document ID: TECH-ARCH-8665

Department: Architecture

Author: Steven Zamora

Effective Date: 2021-04-10

1. Document Scope and Executive Summary

This reference document outlines the core policies, standard operating procedures (SOPs), and operational governance for the

The executive summary highlights the importance of establishing clear guidelines, standards, and best practices to support the c

2. Core Policies and Standard Operating Procedures

2.1 Design Principles

- * Architecture principles: [list specific principles, e.g., scalability, security, maintainability]
- * Design guidelines: [provide detailed design guidelines for architecture development]

2.2 Project Management

- * Project lifecycle: [describe the project lifecycle stages, e.g., initiation, planning, execution, monitoring and control, closure]
- * Project management methodology: [specify the methodology used, e.g., Agile, Waterfall]
- * Roles and responsibilities: [define roles and responsibilities for architects, designers, and stakeholders]

2.3 Code Quality and Standards

- * Coding standards: [provide guidelines for coding best practices, e.g., naming conventions, formatting]
- * Code review process: [describe the code review process, including peer reviews and automated testing]
- * Version control: [outline version control processes using tools like Git or SVN]

2.4 Collaboration and Communication

- * Communication channels: [define communication channels for architects, designers, and stakeholders, e.g., Slack, email, mee
- * Meeting procedures: [provide guidelines for meeting preparation, facilitation, and follow-up]
- * Documentation standards: [outline documentation standards for architecture-related deliverables]

3. Compliance Monitoring, Penalties, and Operational Governance

3.1 Compliance Monitoring

- * Audit frequency: [specify the frequency of audits, e.g., quarterly, annually]
- * Compliance checks: [describe specific compliance checks, e.g., code reviews, security audits]
- * Escalation procedures: [provide guidelines for escalating non-compliance issues]

3.2 Penalties and Consequences

- * Non-compliance penalties: [specify the consequences of non-compliance, e.g., warning, reprimand, termination]
- * Repeated offenders: [outline procedures for repeated offenders, e.g., additional training, probationary period]

3.3 Operational Governance

- * Decision-making process: [describe the decision-making process for architecture-related decisions]
- * Change management: [outline change management processes for updating architecture policies and procedures]
- * Training and development: [provide guidelines for architect training and professional development]
