- * Department: Architecture
- * Author: Robert Bush
- * Effective Date: 2022-08-04

1. Document Scope and Executive Summary

This reference document outlines the core policies, standard operating procedures (SOPs), and guidelines for the Architecture department.

The scope of this document includes:

- * Defining roles and responsibilities within the Architecture department
- * Establishing standards and guidelines for architectural design
- * Outlining the process for creating, reviewing, and implementing architectural designs
- * Identifying key performance indicators (KPIs) and metrics for measuring architectural design effectiveness

2. Core Policies and Standard Operating Procedures

2.1 Design Principles and Guidelines

The Architecture department shall adhere to the following design principles and guidelines:

- * [List specific design principles, e.g., "Modularity," "Scalability," "Usability"]
- * [Include relevant design guidelines, e.g., "Font sizes and styles," "Color palette," "Icon usage"]

2.2 Design Review and Approval Process

The following process shall be followed for reviewing and approving architectural designs:

1. **Design Submission**: Architects shall submit their designs to the Architecture department for review.
2. **Initial Review**: The Architecture department shall conduct an initial review of the design, focusing on compliance with company standards.
3. **Design Feedback**: The Architecture department shall provide feedback to the architect on areas of improvement and suggestions.
4. **Revisions and Re-submission**: The architect shall revise their design based on feedback and re-submit it for review.
5. **Final Review and Approval**: The Architecture department shall conduct a final review and approve the design if it meets all requirements.

2.3 Change Management Process

The following process shall be followed for managing changes to architectural designs:

1. **Request for Change**: Architects or stakeholders shall submit a request for change, outlining the proposed modifications.
2. **Assessment and Feedback**: The Architecture department shall assess the impact of the proposed changes and provide feedback.
3. **Change Implementation**: If approved, the requesting party shall implement the changes in accordance with company standards.

3. Compliance Monitoring, Penalties, and Operational Governance

3.1 Compliance Monitoring

The Architecture department shall regularly monitor compliance with this document's policies and procedures. This monitoring shall include:

- * Reviewing design submissions for adherence to company standards
- * Conducting regular audits of architectural designs in production
- * Identifying and addressing any non-compliance issues

3.2 Penalties for Non-Compliance

In the event of non-compliance with this document's policies and procedures, the following penalties shall apply:

- * **Minor Infractions**: A written warning and a requirement to re-submit the design or implement changes.
- * **Major Infractions**: A suspension or termination of architectural privileges until compliance is achieved.

3.3 Operational Governance

The Architecture department shall operate in accordance with the following governance principles:

- * **Accountability**: Architects are accountable for their designs and the impact they have on the company.
- * **Transparency**: The Architecture department shall maintain transparency in all design-related activities, including decision-making.
- * **Responsibility**: Architects shall take responsibility for their designs and be held accountable for any issues or concerns that arise.
